

# Hot Inspector

**Unit Drop Forge Co., Inc.** is a privately-held heavy manufacturing company that celebrated a **Century of Success** in 2018! On one hand, it's the kind of gritty, old-school heavy metal manufacturing plant that's pretty rare these days. But on the other hand, it's a high-tech, leading-edge manufacturer with sophisticated engineering and CNC machining capabilities. We've worked hard to develop a culture of mutual trust, respect, and accountability. Known as a great place to work for generations, many employees have spent their entire careers with us.

Located in West Allis, Wisconsin, Unit Drop Forge is a world class manufacturer of custom designed closed-die forged steel components. We have been producing exceptional quality parts for a wide variety of markets such as: Construction, Off-Highway, Mining, Railroad, Wind Energy, Oil Field, Compressors, Forestry and Defense.

Successful candidate must have a great work ethic, be self-motivated, safety-oriented, and take real pride in their job.

**Unit Drop Forge is looking to add to the position of Hot Inspector on the UDF Team**

**Essential Duties and Responsibilities** including but not limited to

- Examination, identification, segregation and documentation of forgings
